Draft Plan or Daft Plan : The Draft Plan for Carrick-on-Suir Town Centre Strategy 2007 which is available in the Town Hall and should be read in detail by all residents and business people. On reading the Draft Plan I failed to find any suggestions of job creation in the immediate and I am wondering why a proposal or plan to improve the lot of the existing traders in the town in not in it. A revision of the parking and the traffic flow over the two bridges would have an immediate effect. For traders to wait for a new bridge and other objectives to be achieved first is unfair - I suspect many will be gone out of business by then. **It's time for the people of Carrick-on-Suir to wake up.**
